

NOTICE OF AVAILABILITY OF A DRAFT MITIGATED NEGATIVE DECLARATION

Pursuant to Title 14 of the California Code of Regulations, Section 15087, this is to advise that the City of Upland, which is the Lead Agency overseeing this project, has completed a Draft Mitigated Negative Declaration for the proposed project described below.

PROJECT LOCATION: The project area will occur in the Cucamonga Creek Wash in an unincorporated area of the San Bernardino County (San Antonio Heights), in the City of Rancho Cucamonga, and the City of Upland. The project site is generally located between North Campus Drive and the Cucamonga Creek Trail and from 20th Street and 26th Street.

PROJECT DESCRIPTION: The proposed project is to repair the existing crosswalls used for water conservation by capturing the local storm flows and improve the percolation back into the existing groundwater basin. The proposed project also involves the excavation and removal of approximately 200,000 cubic yards of aggregate material which will result in the stockpiling and sorting of material, then hauling the material off site for construction projects. This secondary activity will include the drawing down of the existing stockpile, resulting in the removal of all stockpiled material from the south side of the Cucamonga Dam, returning the stockpile area to the existing grade.

PUBLIC REVIEW PERIOD: The Draft Mitigated Negative Declaration is available for public review and comment pursuant to California Code of Regulations, Title 14, Section 15087 (California Environmental Quality Act). Your comments may be sent as soon as possible, but **no later than Wednesday, JULY 29th, 2015**. All comments must be submitted in writing to the address below. The comment period during which the City will receive comments on the Draft Initial Study and Notice of Intent to Adopt a Mitigated Negative Declaration is:

Starting Date: June 29, 2015 **Ending Date:** July 29, 2015
